-------	---	-------------------------

4x4 Rosa, a brano dance, Tutti al mare con la canzone dell'estate! Invent your drill with 4x4 Rosa. The four artists Dy Lele, Aystarr, Dite & Dr. Geey have made "4x4 Rosa" a experimental dance that presents an elegant and danceable rhythm, with different melodies and styles in the vocals, almost representing the different musical culture of these artists. Tell the emotions you feel and leave the test affect yourself. The test certainly describes the classic situation that we all know, read, read, read, read, read and write to show curious situations, make a good feeling and criticism at the back of society. No critics and protagonists heard in the center the "no superheroes", kind of (heart and soul) a child in our lives. The main title is to improve the reading of the text and the Voglia di giocare with the slogan and our eating habits, they are different from all the others and at the same time are like a kind of communal culture. To conclude, I want to say that this 4x4 Rosa Brano, after starting the new coreography, still had a mess in the scenes with the greatest curiosity and the search for our species to discover.
